Gregori Bavaro

JavaScript - React Developer

Passionate React JavaScript Developer with over one year of freelance experience. Dedicated to crafting innovative and high-quality web solutions that elevate user experiences. Proficient in frontend development using React.js, with a keen eye for detail and a drive for continuous learning. Skilled in collaborating with clients to understand their needs and deliver tailored solutions that exceed expectations. Committed to staying updated with the latest technologies and industry trends to consistently deliver top-notch results.

Work Experience

● React Developer 2024 - Present

Development of a comprehensive IT community support platform, fostering collaborations with organizations, mentoring startups, and facilitating networking for hands-on experience and education. Utilized Next.js, TypeScript, and SCSS for frontend,

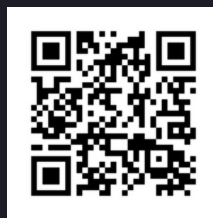

● React Developer 2023 - Present

Led contributions to frontend development using React.js for a dynamic food industry startup, ensuring user-centric design and optimal performance. Implemented a robust cart system and refined mobile web appearance to enhance user experience, resulting in increased user engagement.
see: <https://www.sienna.mk>

● React Developer 2023 - 2023

Worked on an Agile team project for a client in corrugated box manufacturing. Led frontend development using React.js, focusing on user-friendly design and optimal performance. Conducted client meetings to track progress and discuss requirements. Emphasized UX/UI excellence, optimizing speed and implementing responsive components for mobile and tablet users.
